To The Public

We are literally your servants. Our business is not merely to sell you gas but to give you good gas service. Do us the favor of selecting our office as the proper place to register complaints. We invite your help and co-operation at all times. We are always ready to make investigation, and any errors will be promptly rectified. It is our constant endeavor to give you a service which is complete and satisfactory in every detail. Any employee who fails to recognize this fact and who does not do his utmost to serve you is not rightly representing our company and its policy toward the public. Our policy: The public is entitled to courteous treatment and to the best possible service.

To Our Employees

YOU are the company. Treat our customers as you yourself like to be treated. In other words, be courteous. Courtesy avails much and costs little. It is the most valuable asset you can possess. By making courtesy a daily habit, you will not only win friends for the company but you will make yourself a better—and better paid—employee. Disputing with customers is bad business. Assume, always, that the customer is right in his or her complaint until the facts are looked up. If investigation shows no ground for just complaint, make the facts so clear that you will preserve his or her friendship. Remember that the company's reputation is in your hands. Guard it as you would your own.
